## Wheel Aligner Easy CCD+ | Tablet

CCD wheel aligner with Tablet, MultiFit wheel clamps, turntables, and wall storage

Article number: 1 690 310 080

## Description

### Ideal for occasional wheel alignments

- Space-saving storage of sensor heads, clamps and tablet on the wall
- No trolley
- Ready for use at any time
- Compatible with all wheel alignment lifts

### Perfectly integrated into driver assistance system calibration (ADAS) and headlight testing:

- The space in front of the platform can be used for calibration targets and headlight tester
- Permanent monitoring and precise alignment of the alignment tool to the geometric driving axis
- No extra cameras or holders are required for ADAS calibration

### Best in class: maximum accuracy

- 360° measuring field ensures permanent self-monitoring and adjustment of the system
- Rolling compensation on four wheels simultaneously without time-consuming lifting of the vehicle
- No binding or calibration to a specific lift
- Radio transmission and battery operation ensure full mobility
- Intelligent charging concept via wall solution
- Quality Made in Germany

### Scope of delivery:

- EasyCCD sensor head
- +Software with Smart-Test quick measurement and ADAS calibration option
